

LUIGI BUSACCHI

Live Broadcast

Produzioni video

Sistem Integrator A/V

PROFILE

I have spent most of my professional life on **television** events, live and recorded in the studio. Over the years I have always tried to expand and update my technical knowledge following the faster and faster technical innovations. I have also had experiences in **cinema**, **museum** and **educational** fields.

EXPERIENCE

Begin

1985-2006

Completed my technical studies I started working in 1985 for a company in live show amplification business. In 1986 I entered as audio assistant in the "Antoniano studios" in Bologna, in Italy, where I worked until 2006 becoming, since 2000, **technical manager**. In these years I have also worked as a **sound engineer** in numerous shows, including the 1992 winter tour by Paolo Conte.

Free Lance

2006 - TODAY

In 2006 I left my permanent job and undertook different experiences with many clients. The most important commitments were the realization of several **reality shows** in Italy and abroad, the **Ski World Championships** in Canada and U.S.A., the **World Cup** in South Africa and the **Winter Olympics** in South Korea and China covering both the role of the audio mixer and technical manager.

The latest experiences

2013 – TODAY

I worked in **Formula 1** television production in 2007 and 2008. Since 2013 this is my main commitment. Over time I have made several **documentaries** in socio-educational field, taking care of both the conception and the realization. In addition to countless sporting events I have collaborated in the creation of records and concerts of classical music. As an electronic technician I deal with **wiring** for radio and television galleries. I have also taught professional **courses** in television and audio.

CONTACTS

 (+39) 347 1393 220
