Biography

I was born in 1982 in Ortona, but grew in Rieti. Since 2005 I have been making short films under the Lighter Movie brand, my personal brainchild. After graduating with a degree in film at Bologna University, I moved to Berlin where I worked two years as an assistant for Reynold Reynolds, becoming intimately involved with the video artistic scene of the German capital. Since my return to Italy I have been working as freelance videographer on various projects.
