

## Camilla Panebarco – Production Manager

Camilla Panebarco was born in Ravenna in 1982. At the beginning of the 1990s, her father Daniele brought home his first PC and Camilla, still young but already very curious, began to play with programming, experimenting with software and interactive story editors. After graduating in 2001 from the Dante Alighieri Classical High School (Foreign languages), she decided to nourish her scientific-mathematical interests and enrolled in the Degree Course in Computer Science at the University of Ferrara.

Partner of Panebarco, she has been working actively since 2006 and now manages the company together with her sister Marianna and brother Matteo. In particular, she coordinates and follows the activities for the production of videos in 2D animation and motion graphics: research of references and materials, development of moodboards, creation and editing of storyboards, illustration and animation. Furthermore, she deals with graphic development for corporate communication, digital and otherwise. Her geeky curiosity spurs her to always keep up to date on digital illustration and animation techniques (and more) and on management, design and production tools, both software and hardware.

She is co-author and co-producer of the award-winning short "Caramelle" (2022) and co-creator and production manager of two TV series in development: "#NostoppingNora" in 3D animation and "Keepers - The guardians of the sea" in 2D animation.

Camilla is also Production Manager for Panebarco of all the works the company is involved in, also as a service for other production companies:

- The live action short film "Ti Respiro", produced by Daitona, in association with Panebarco and Piroetta Fims, and directed by JAB, stage name of the young directors duo Giuliano Giacomelli and Lorenzo Giovenga (COMING SOON)
- The documentary "È la vita che sogna", written by Cinzia Masotina and Marina Spada, directed by Marina Spada, a Gagarin and Panebarco production (IN PRODUCTION)
- "Guglielmo the inventor", a cartoon TV series inspired by Guglielmo Marconi's childhood. Produced by POPCult (IT), Animalps (FR) and Krutart (CZ) and presented at Cartoon Forum 2024 (IN DEVELOPMENT)
- The 2D animated feature film "Arf", directed by Simona Cornacchia and Anna Russo and produced by Genoma Films in collaboration with Panebarco, Showlab, Margutta Studio and DigiToonz; in this case the company was responsible for supervising the entire production process, working in particular on animations, VFX effects and compositing (RELEASED IN THEATERS IN 2024 AND NOW ON RAIPLAY)
- The documentary "Diari della Liberazione" produced by Lorenzo Cioffi for Ladoc, Tina Leeb for Docdays and co-produced by ZDF, directed by Matteo Parisini (COMING SOON).

## Camilla Panebarco – Curriculum Vitae
