

InClouds

<http://www.inclouds.it>

InClouds is a young audio-visual and multi media production company ,co-founded by Cristian Cappucci and Vanessa Zanini. We developed and produced “I Talk Otherwise”, the first feature film by Cristian Cappucci and “InDanube” a trans-media anthology project that is related to several European countries. Our mission is to create a link between analogic pictures and digital culture with the creation of a new digital language.
