/ Live and Studio Sound Technician /

// Personal Experiences

A professional in the audio industry since 2003, I began my career after studying at the Academy of Cinematic Arts in Bologna. I have been involved in various events and festivals such as Ferrara sotto le Stelle, Festival di Internazionale, and Summer Festival di Ferrara. My commitment and collaborations in the industry led me to establish a recording studio, "Animal House Studio," where I immersed several bands in the music industry, including Le Luci della Centrale Elettrica, Zagreb, Pierpaolo Capovilla, and Duo Bucolico. During the pandemic, I collaborated with Michelangelo Ingrosso and Tulpa Studio, participating in the recording and audio production of audiovisual projects.

// Education

Mechanical Technician Diploma, ITIS Ferrara, 2000/2001

Diploma in Cinematic Arts, Academy of Cinematic Arts Bologna, 2002/2003

// Skills

Studio and live sound engineering

Use of analog and digital mixers for live events and analog or digital recording

Production and recording of live and studio sessions for artists, soloists, and bands

Professional use of DAWs such as Avid Pro Tools, Apple Logic, Cockos Reaper, Ableton Live
