Problem solving

## Languages

Italiano

inglese - B1

## Hobby/Interest

- cinema
- visual art

I am 29 years old, organized, creative and with a solid experience in the photography sector. In addition to this passion of mine that has led me to develop an attentive eye for details and an ability to capture significant moments, I have always had a strong interest in Film Production, a field in which I want to grow professionally.

My ability to manage complex projects, combined with my creativity, allows me to contribute significantly to both disciplines.

## Work History
