FILM & EMOTIONS

We are a production company and video agency.

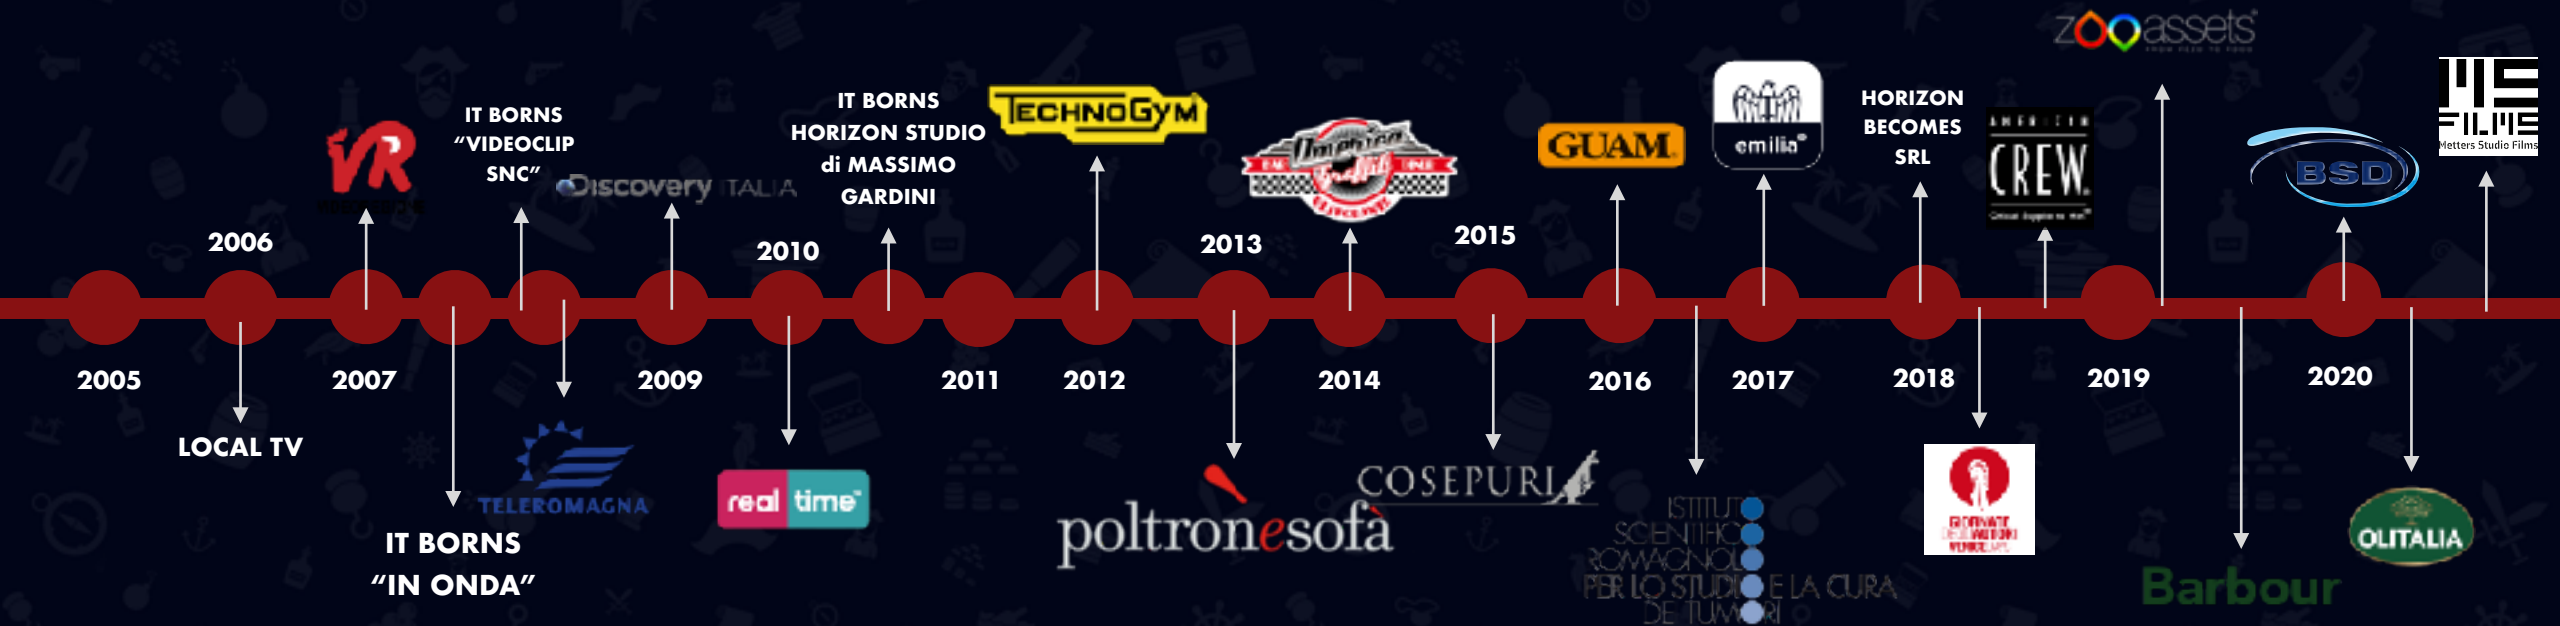

The company is structured in:

Cinema - Video Agency - Live, Streaming & events.

Everyday we are - as for cinema, advertising and corporate communication - directed to a unique and huge goal: to move.

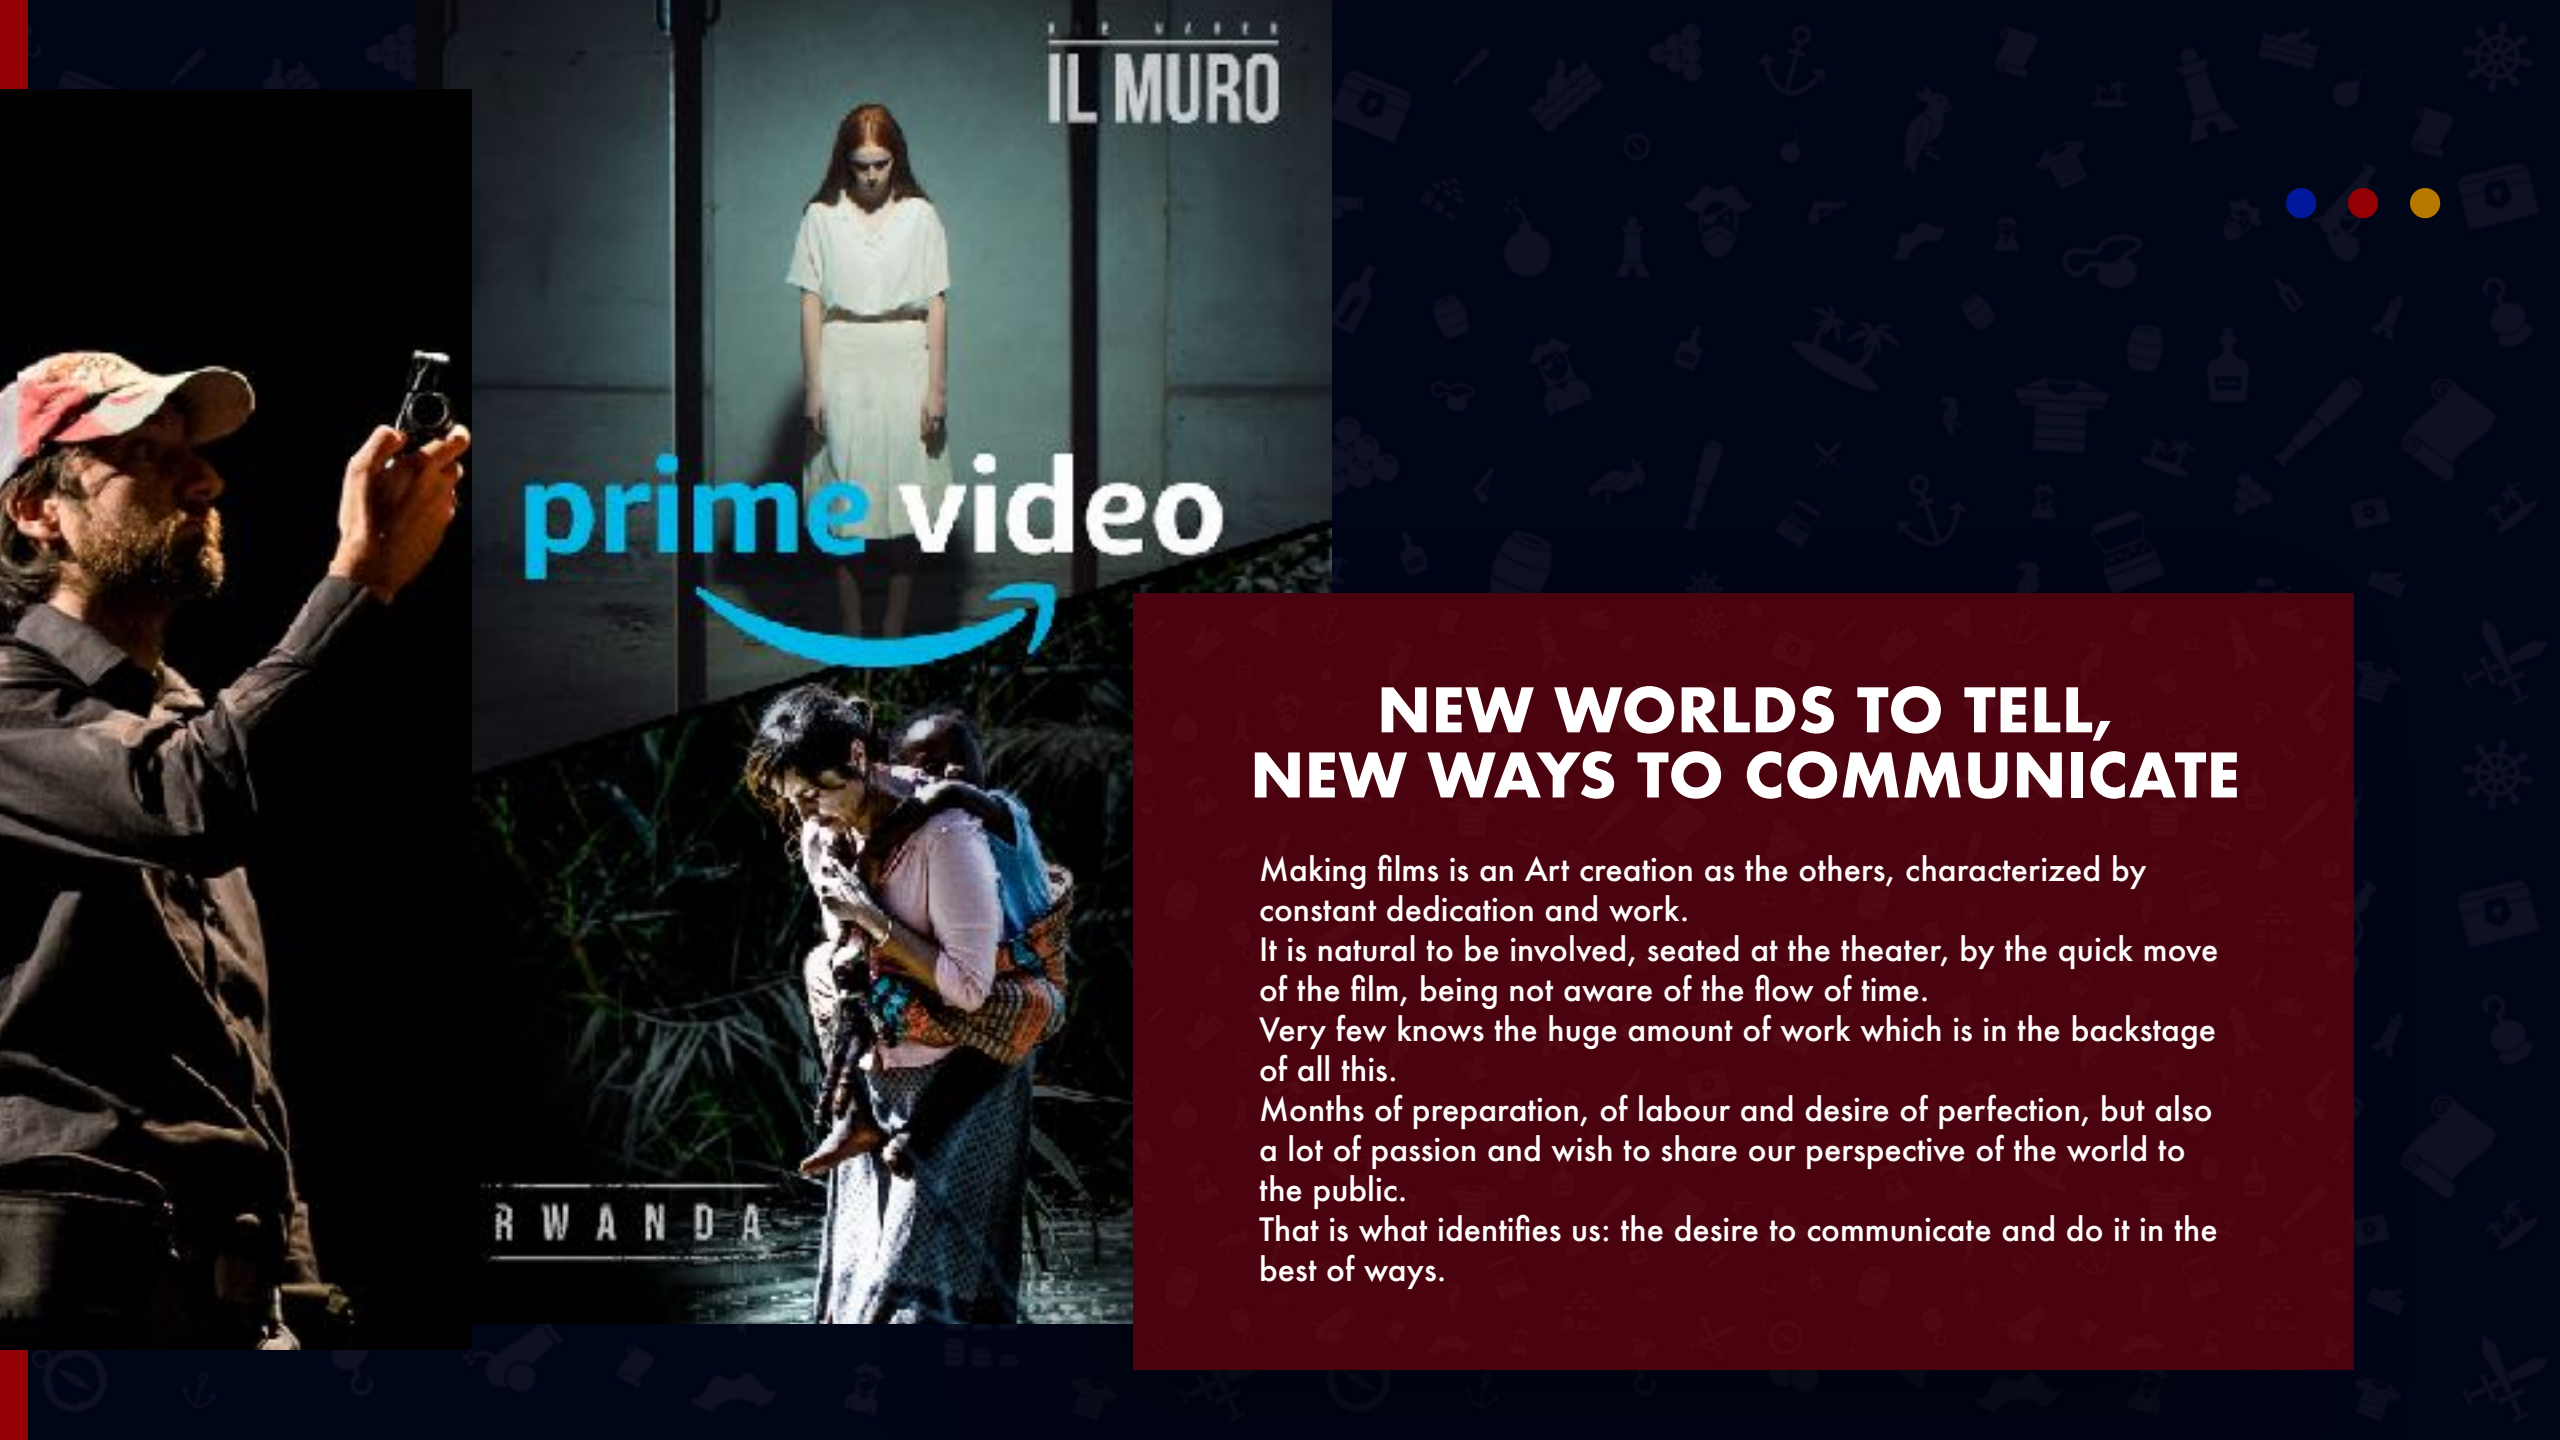

To do it, we have created an efficient and versatile method which allows us to work with multinational corporations and in the meantime to collaborate with small and medium enterprises and freelances.

NEW WORLDS TO TELL, NEW WAYS TO COMMUNICATE

Making films is an Art creation as the others, characterized by constant dedication and work.

It is natural to be involved, seated at the theater, by the quick move of the film, being not aware of the flow of time.

Very few knows the huge amount of work which is in the backstage of all this.

Months of preparation, of labour and desire of perfection, but also a lot of passion and wish to share our perspective of the world to the public.

That is what identifies us: the desire to communicate and do it in the best of ways.
