PROFILE

Person with good creativity and versatility that allows him to wander between different fields of study and work. Good competence and management of work resources in the management of a working team composed of a large group of professionals in the sector. Thanks to past experience, it is able to organize work groups of several people with specific skills in the production of short films, video clips, graphics, web and multimedia in general.

Dynamic and with an aptitude for practicing sporting activities, prone to social relationships, loves to work in cheerful environments, in contact with young and joyful people and mainly in the sectors of tourism, design, music, cinema, TV, dance and entertainment in general.

Prepared for the use of information technology and the use of computers and related programs, both for personal interest and for study / work reasons.
