

Behind every résumé lies a person with a unique journey, shaped by experiences, aspirations, and dreams. Each skill acquired and every achievement reached is the result of dedication and hard work, offered not only for personal growth but also in service of the community. Work is not merely about results; it is an act of connection, collaboration, and constant exchange that enriches and transforms. Let us remember that behind every résumé, there is a life, a story that actively contributes to collective progress.

"WHO AM I?"

Artist and professional in the field of visual arts, with a solid academic background: a Bachelor's degree in New Languages of Painting from the Academy of Fine Arts in Catania and a Master's degree in Painting and Visual Arts from the Academy of Fine Arts in Bologna. My education has provided me with a comprehensive artistic foundation, enriched by practical skills in video editing, post-production, illustration, and graphic design.

Throughout my career, I have developed substantial experience in set construction and as a props specialist for film projects, honing both technical expertise and interpersonal skills. I am a team-oriented professional, eager to contribute creative ideas and collaborate effectively to achieve shared objectives. My passion for designing virtual spaces and video mapping inspires me to explore new artistic dimensions, always seeking opportunities to express my creativity and engage in innovative projects.
