

A PROJECT BY SCARABEO ENTERTAINMENT

CINEPORTO

The Cineporto is a project of **Scarabeo Entertainment**, it is a private hub for production of films and documentaries, catalyzing in one place all the work instrumental to production.

It is located in a structure that **covers an area of 1,500 square meters**. And it is built entirely with sustainability and energy efficiency criteria.

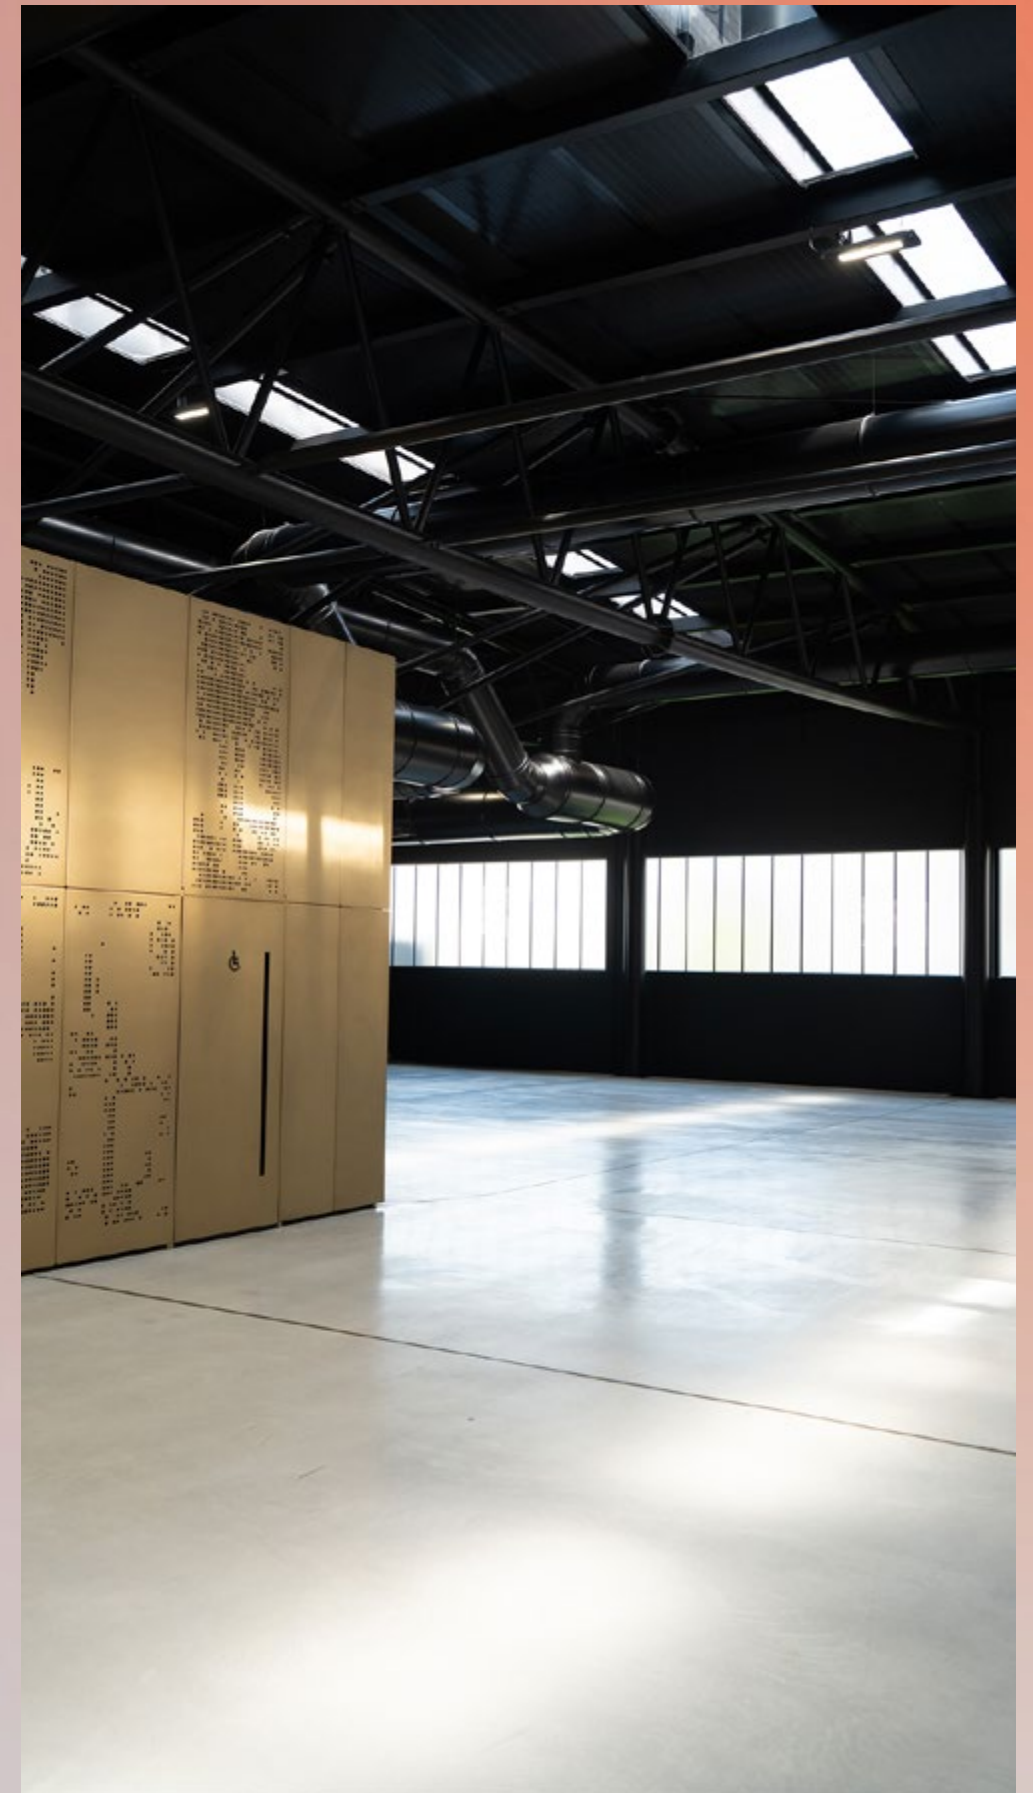

The inner lenticular geometry of the long steel beams allows to have an open space without supporting columns, a space in which the air conditioning is assisted by an **integrated photovoltaic system** and an insulation of all surfaces, all these elements make the entire structure completely self-sustainable in terms of energy.

Architecture meets all needs of big film **crews and shooting companies**, allowing easily the access and transit of trucks for loading, unloading and equipment stock.

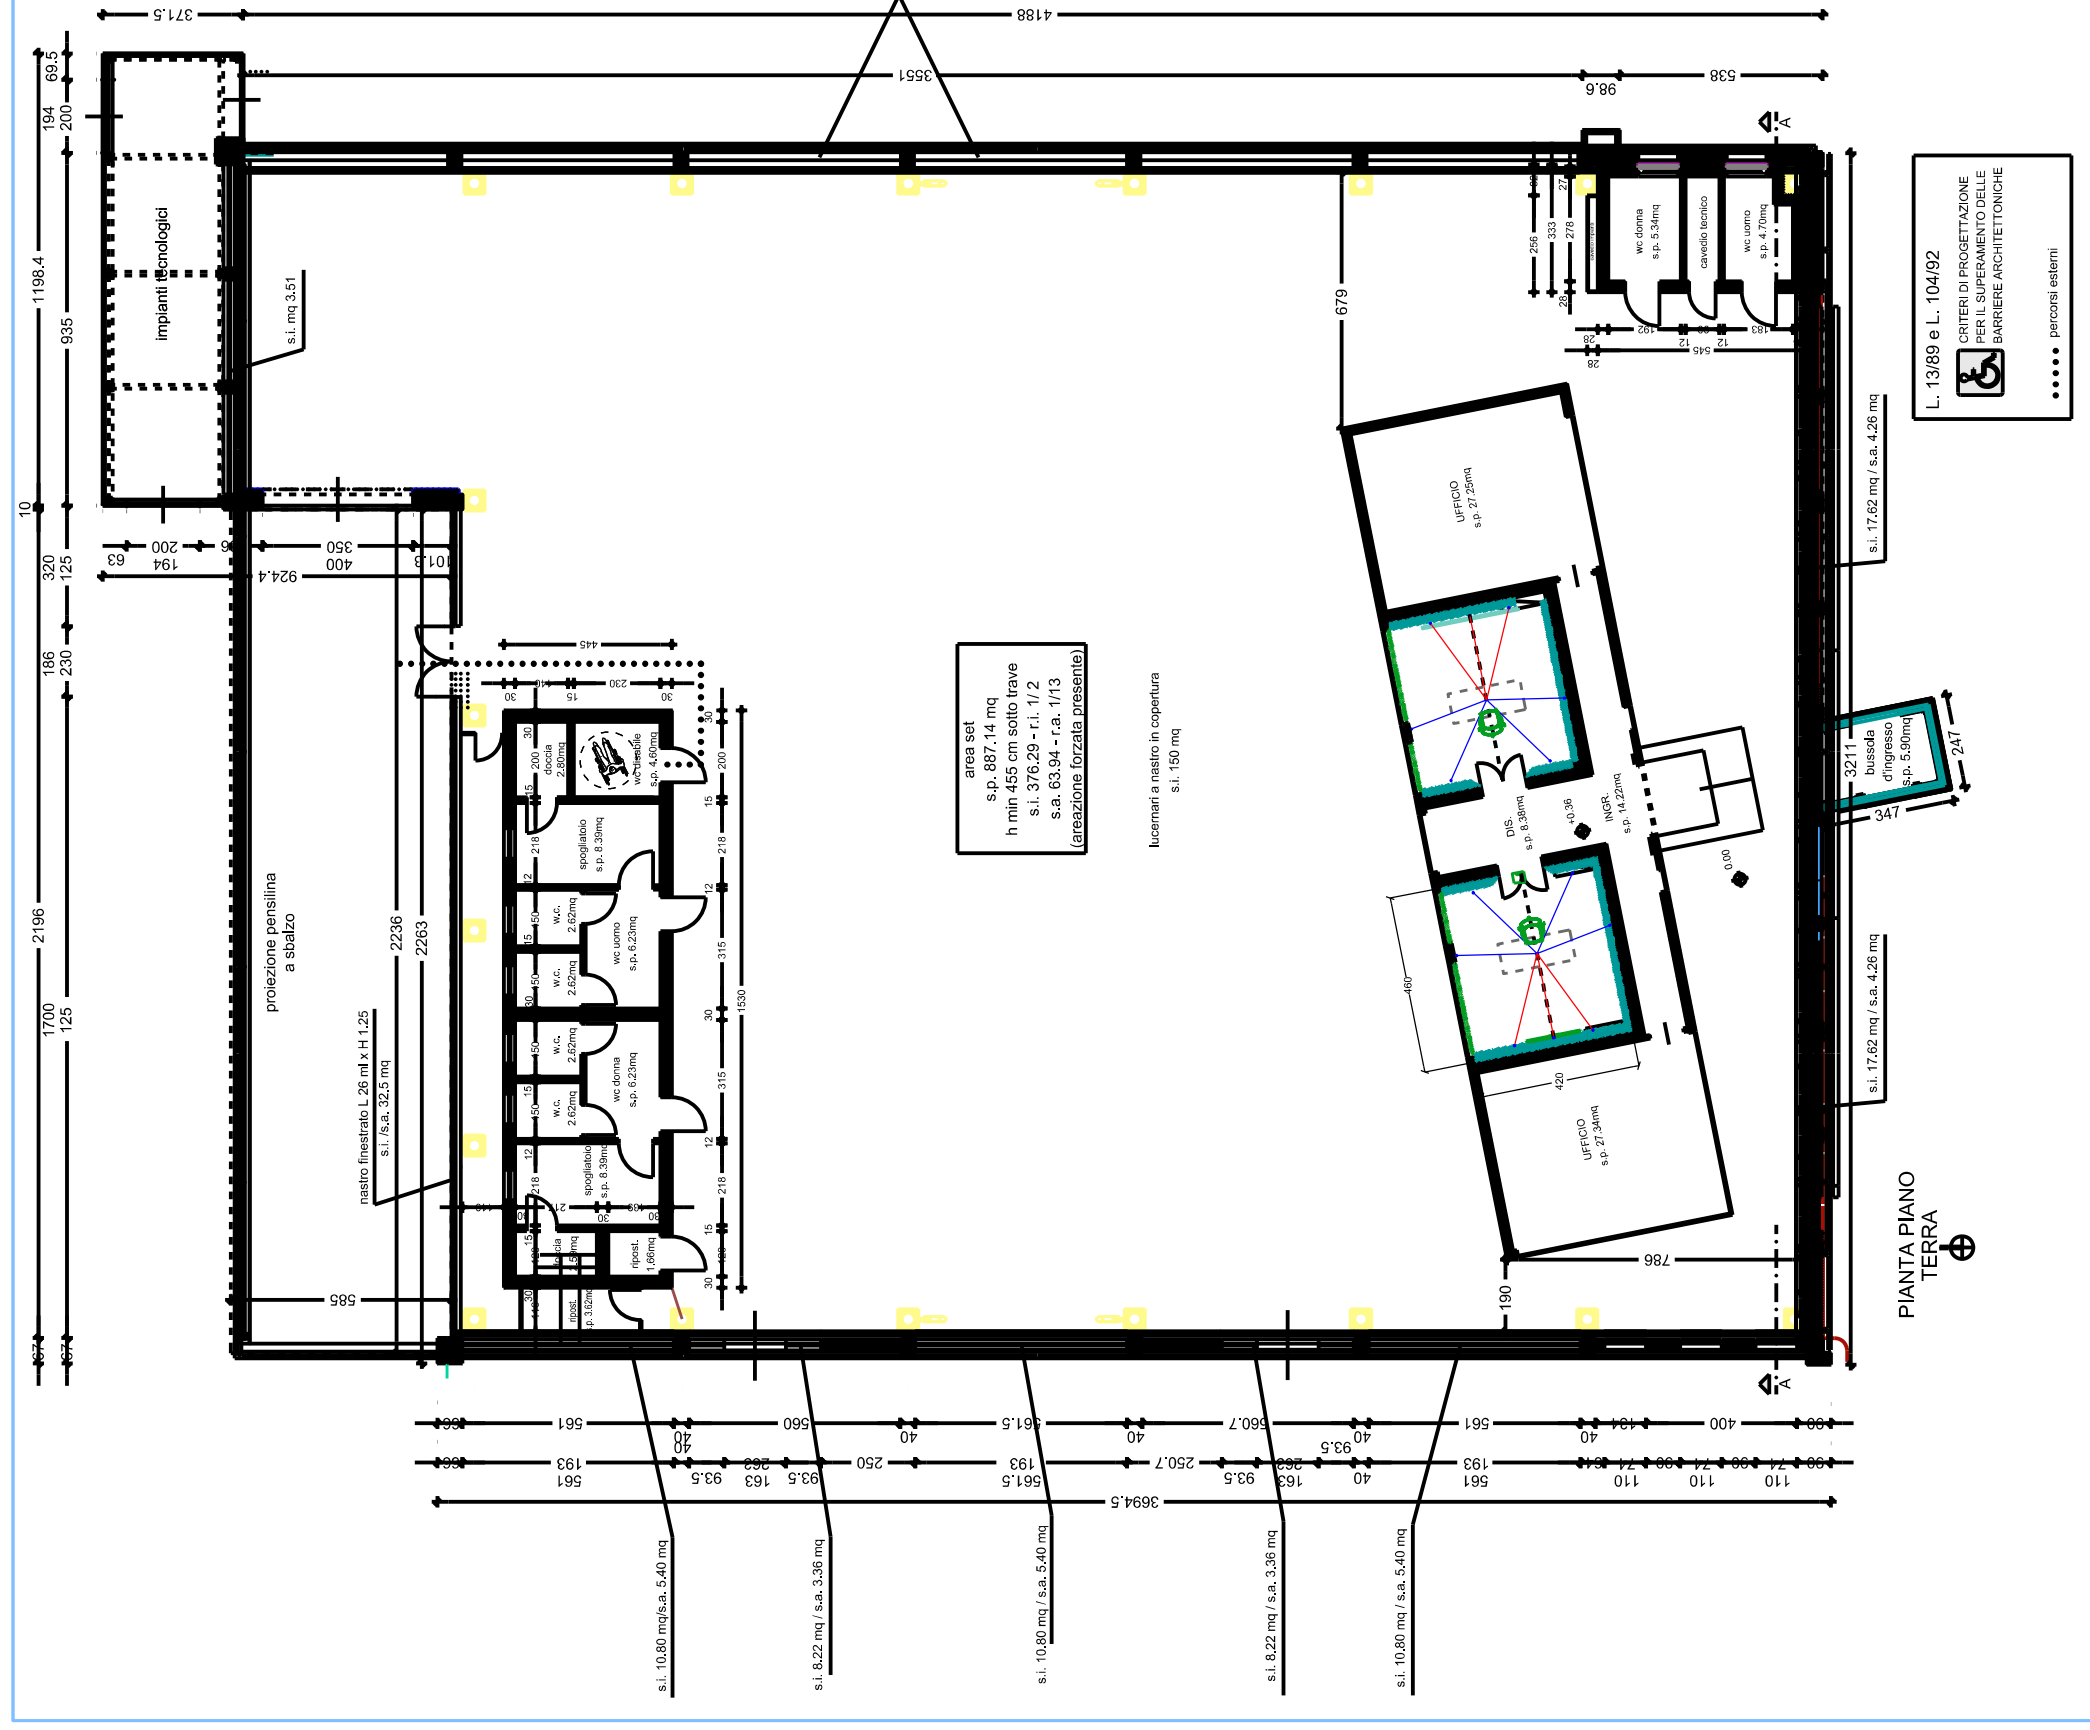

The Cineporto is designed to house offices and a mobile soundstage, within a space in which industry and culture can intersect in ways efficient and sustainable. The goal is to innovate and incubate creative projects by establishing synergies.

This production hub has **three rooms dedicated to audio and video post-production**, both equipped with cutting-edge hardware and software design, to manage the entire workflow of film post-production, from editing to color correction to sound design.

Cineporto of ER was launched on 6th October 2022 after having hosted Michael Mann's film production for Enzo Ferrari's movie in july.

POST **PRODUCTION** FACILITIES

EDITING ROOM

EDITING ROOM

WITH **MAC STUDIO** M1U20-64 48CORE

1X **EIZO MONITOR** 31' 4K **HDR EBU GRADE1 CG 319X**

2X **EIZO MONITOR** CS2420

1X LG 80"OLED EVO **4K HDR**

1X BMD **DAVINCI** RESOLVE **MINI PANEL**

1X BMD **DAVINCI** RESOLVE **SPEED EDITOR**

with

AUDIO SURROUND SYSTEM **7.1.4** K-Array **ATMOS HE**

AND **GENELEC** STEREO **2.0**

All the rooms are provided with
BMD DAVINCI RESOLVE, AVID MEDIA-COMPOSER
& AND AVID PRO-TOOLS

SCARABEO SERVER

STORAGE SERVICES

BACKUP **SYNOLOGY** SYSTEM
WITH CLOUD MANAGEMENT

STORAGE ON-LINE 50TB SSD

STORAGE NEAR-LINE 150-200TB HYBRID

STORAGE CLOUD UNLIMITED

DATA TRANSFER CONNECTION
SPEED OVER **20 GBIT/S**

STUDIOS

CINEPORTO STUDIO

CAN BE **ENTIRELY DARKENED**

+ MORE THAN **1000 SQUARE/METRE**

7 TOILETS

2 SHOWERS

2 DRESSING ROOMS

THE ENTIRE OPEN SPACE OF THE CINEPORTO
CAN BE EASILY **EQUIPPED AND CONVERTED**
IN OFFICES

ELECTRIC POWER OUTPUT: +100 kW

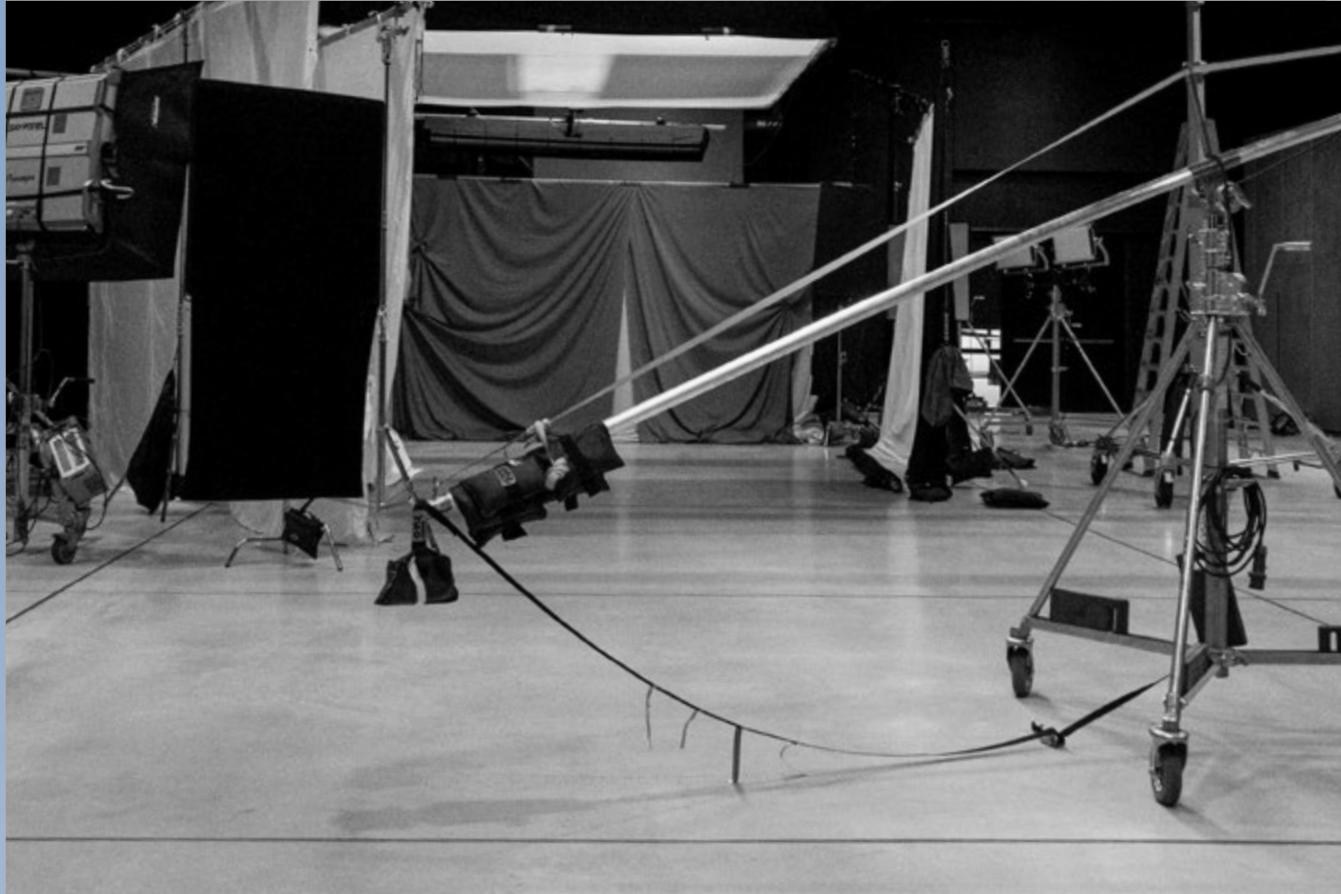

HEIGHT

455cm (minimum height under the beam)

755cm (maximum height above the beam)

The system of lenticular beams
supports a load of 60-70 kg per linear meter.

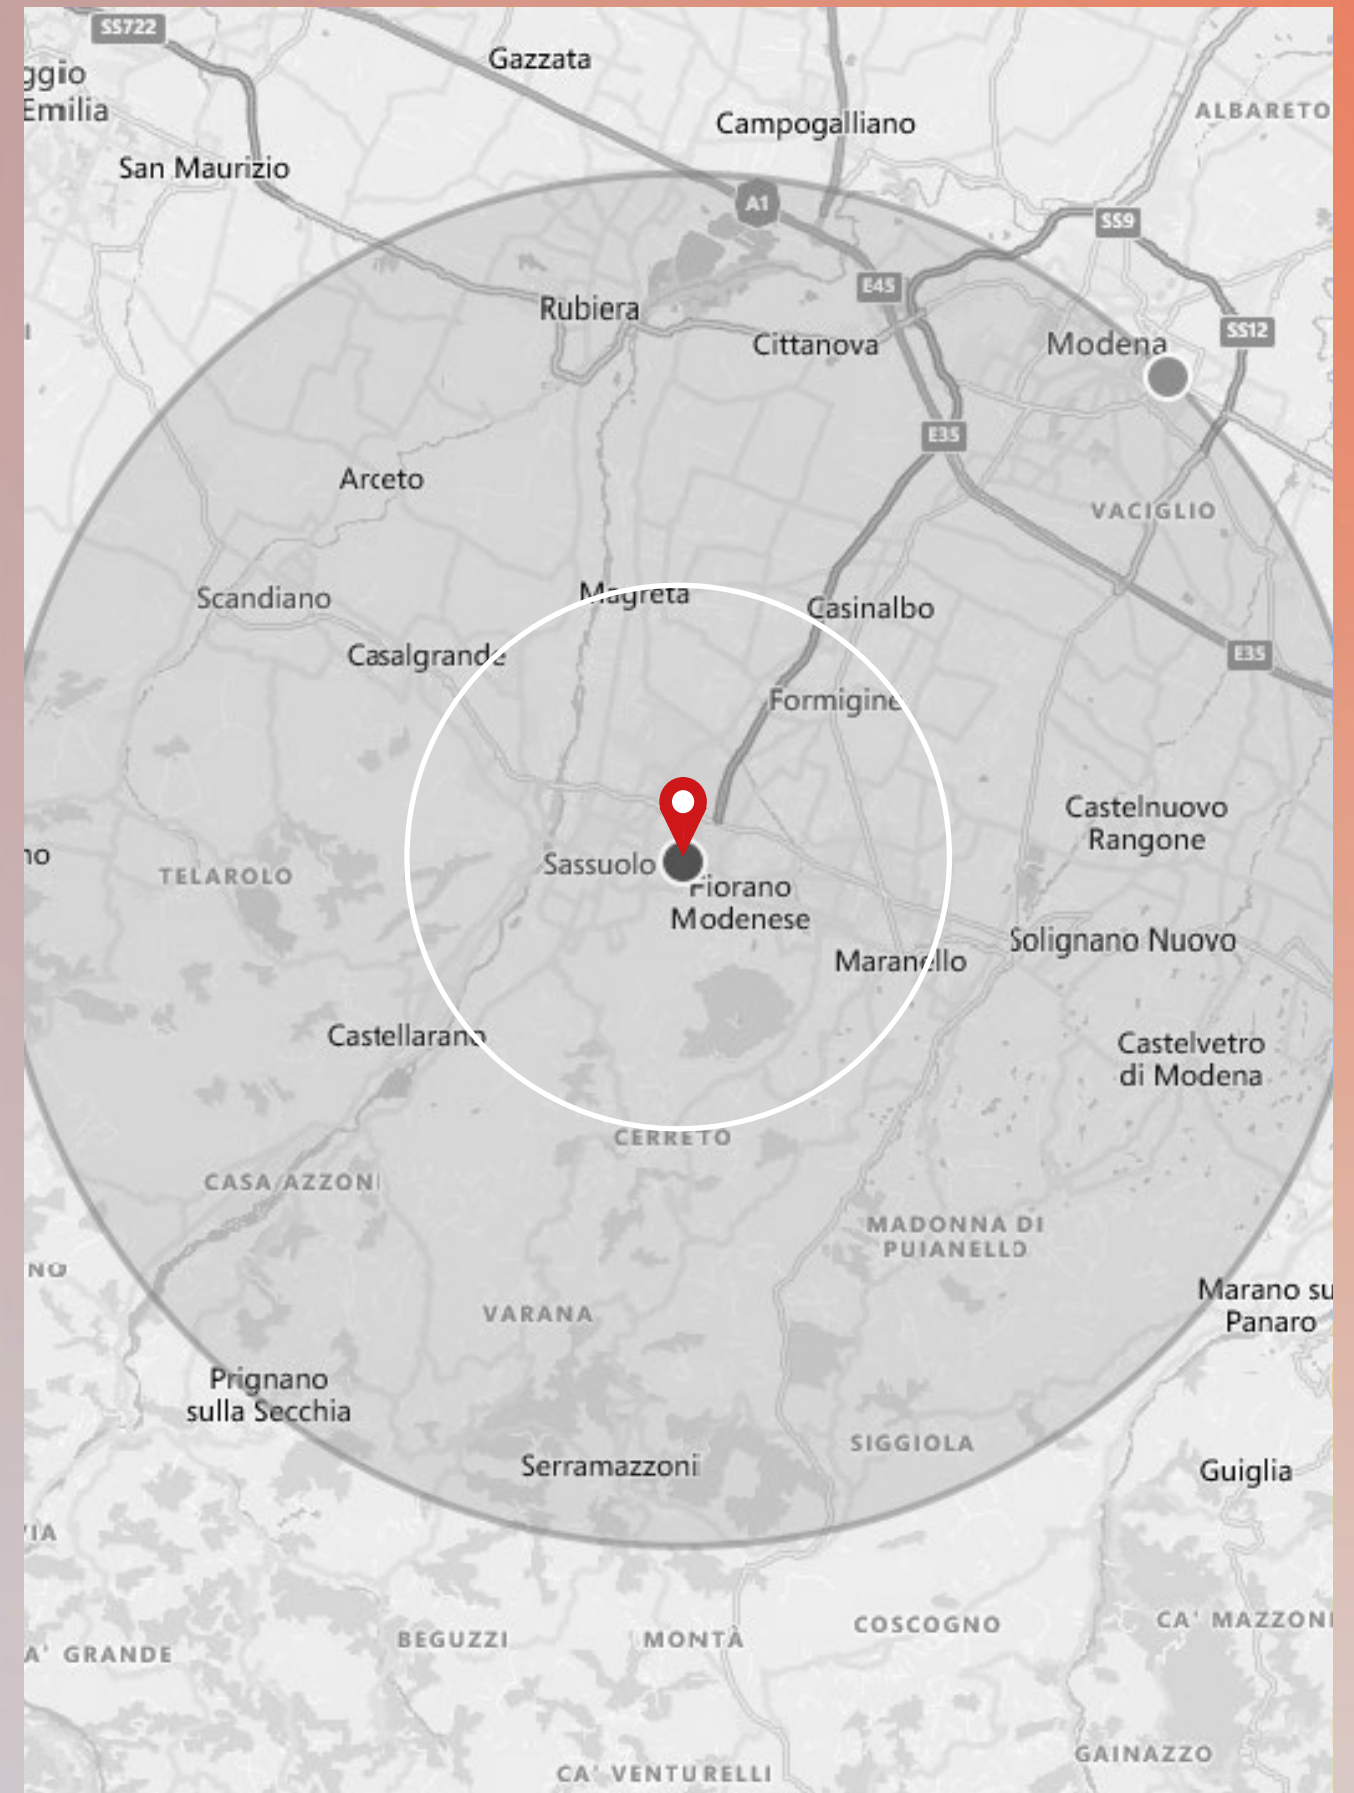

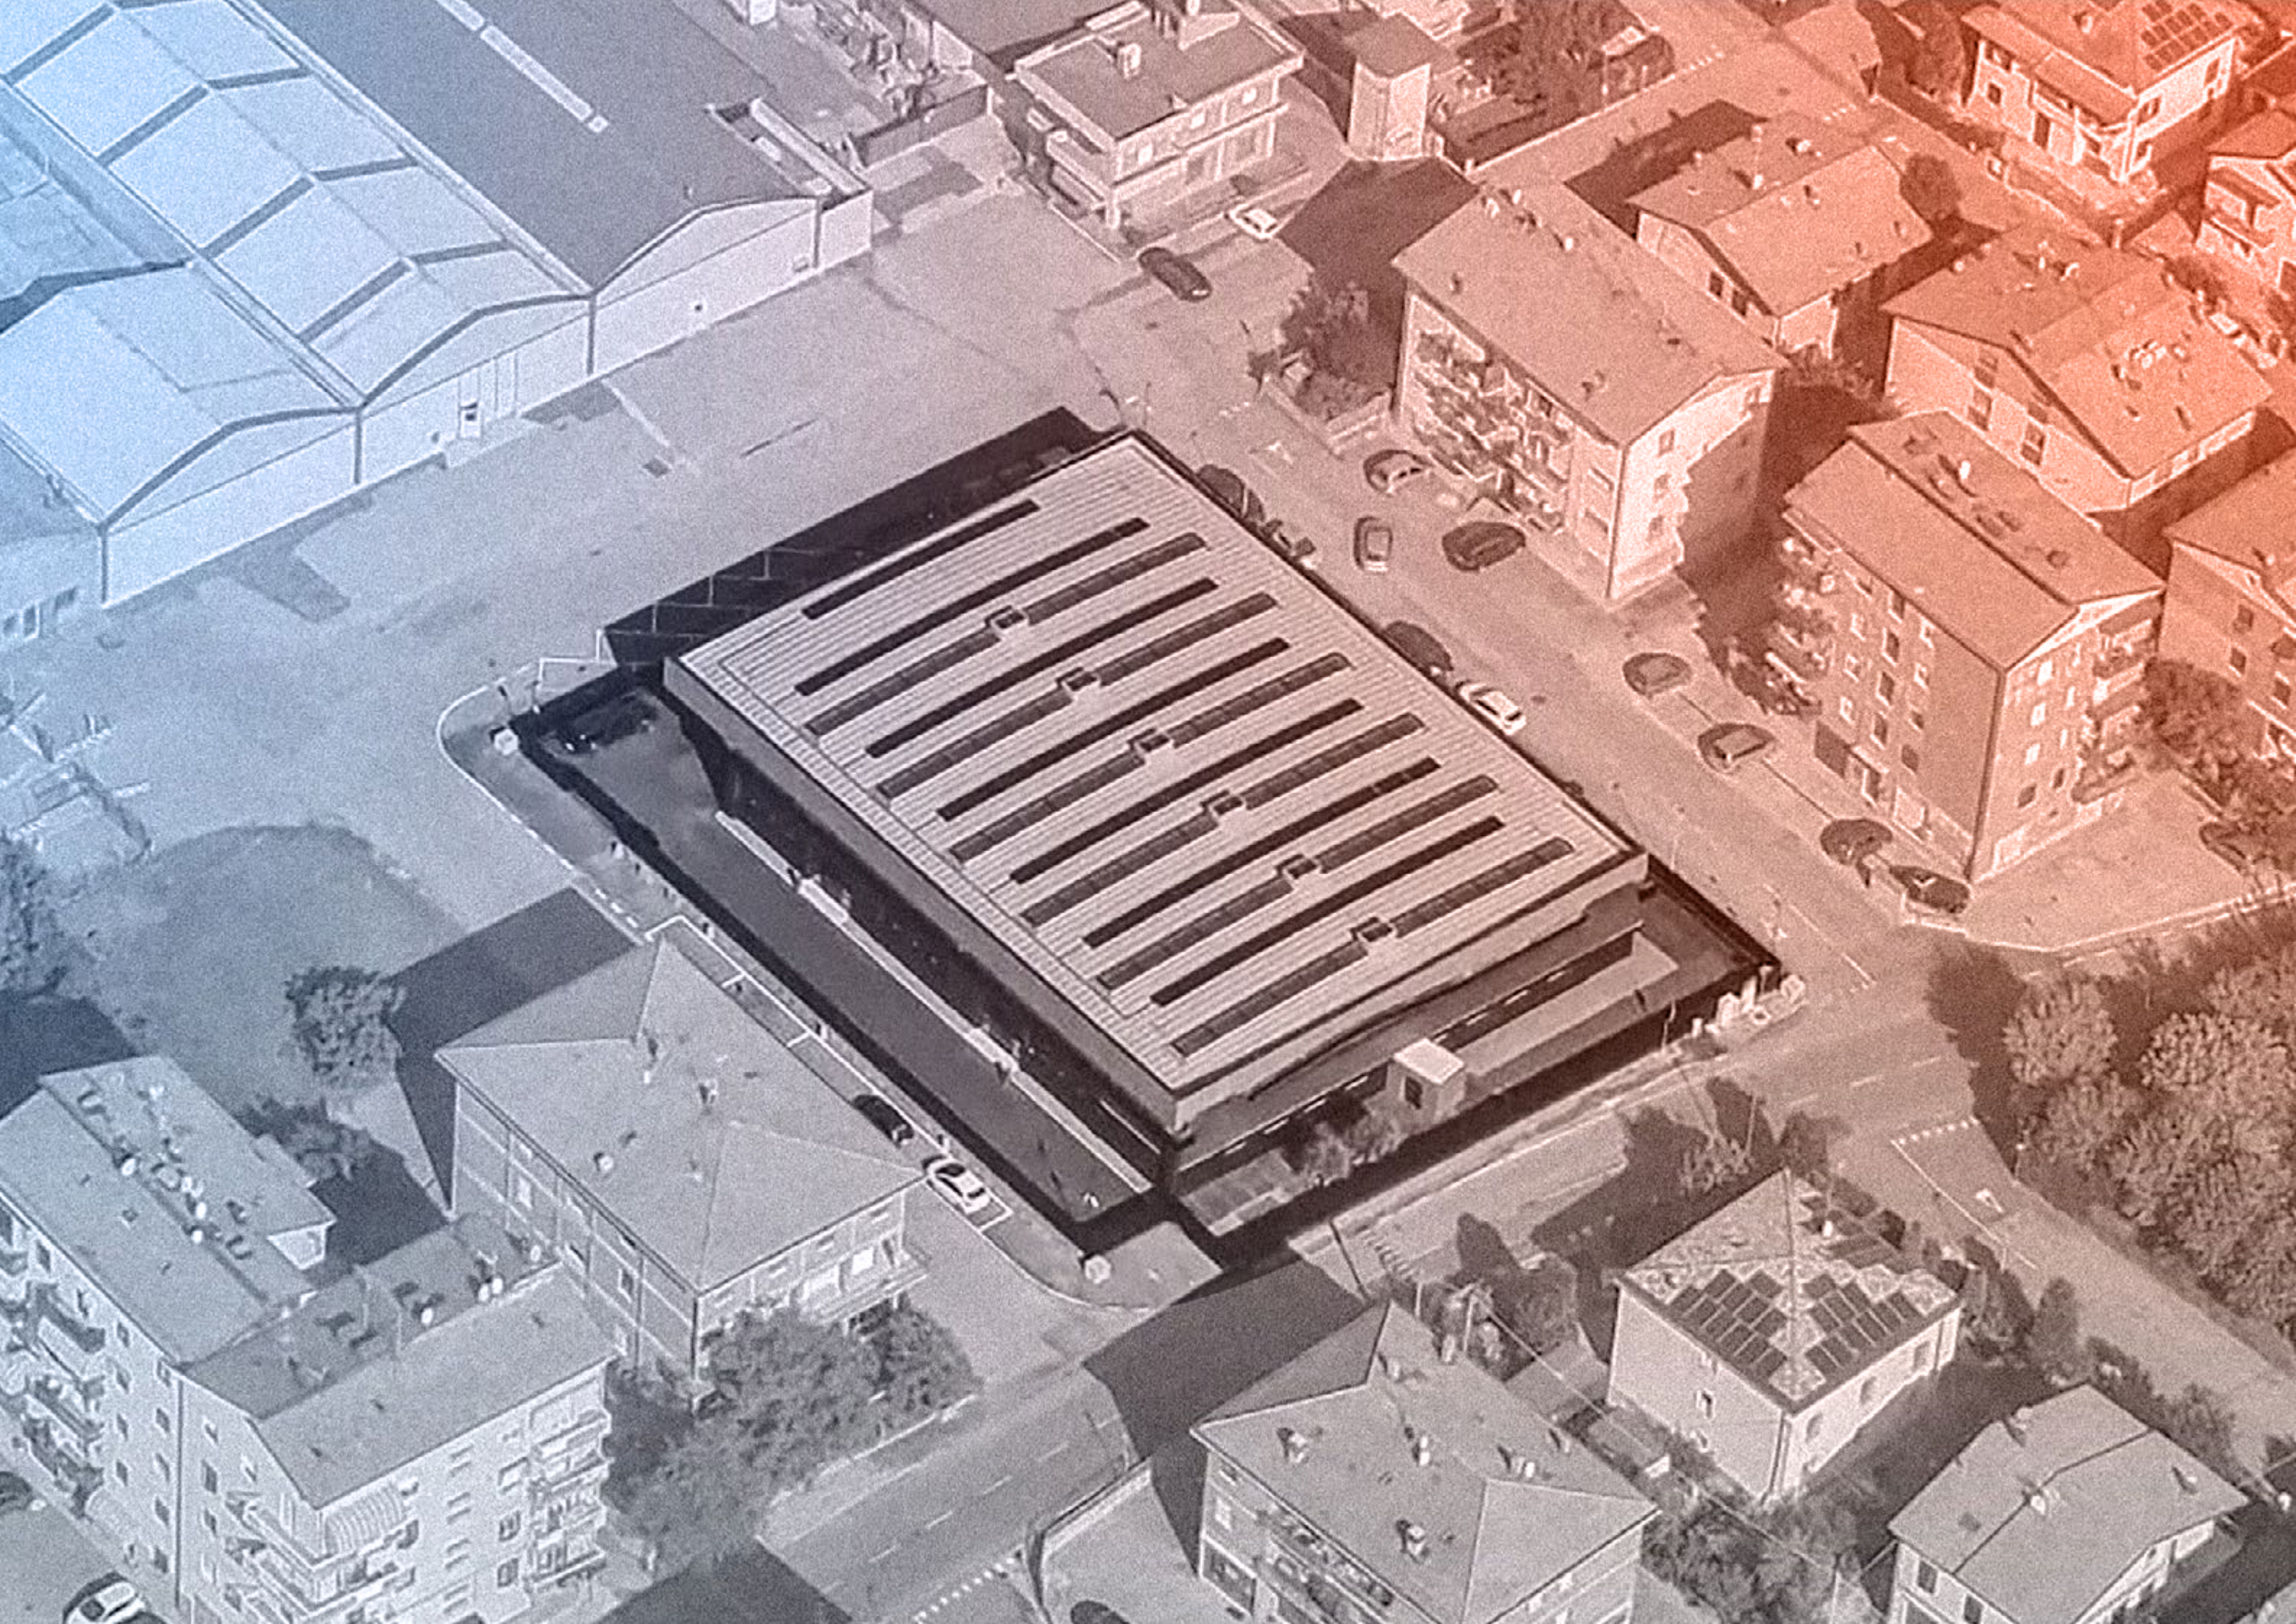

POSITION

THE CINEPORTO
IS SITUATED IN

VIA BRAIDA 22-24-26
41042 FIORANO MODENESE
MODENA, ITALY

17 KM FAR AWAY FROM MODENA HIGHWAY
45 KM FAR AWAY FROM BOLOGNA AIRPORT

FACILITIES

- +COOLING FLOOR SYSTEM
- +EASY ACCESS AND TRANSIT OF TRUCKS FOR LOADING
