CNA is the National Confederation of Crafts and of Small and Medium Enterprises

For over 75 years **CNA Bologna** has been the Association of entrepreneurs of crafts, industry, commerce and tourism, self-employed workers and professionals. It is committed to a country where doing business is easy and rewarding, creating the best conditions for business development through political and trade union representation activities.

It provides companies with **qualified and integrated consultancy and services** through a network of nearly 500 employees dislocated in about 30 offices in the province of Bologna. CNA Bologna is a **single interlocutor for the Bolognese company** and guarantees **tranquillity and safety** to entrepreneurs in the management of their business.

A selection of the main services offered by CNA Bologna are payroll management and processing, electronic invoicing and accounting management, civil and commercial mediation, management control, tenders and access to credit, digitalization and industry 4.0, business start-up, training and activation of internships, etc.

Among CNA Bologna services, it is also provided a consultancy service on environmental management systems and the application of the "Green Film" specification.

Please contact the following person for more information about this kind of support:
