

TerraTrema Film srl

Film production company, ateco code 59.11

Service, rental, post-production facility.

TerraTrema Film srl brings together the twenty years of experience on the sets of the three co-founders to shape a highly qualified operational structure, specialized in optimizing processing costs while maintaining the highest quality standards.

In order to protect the investments of partners and customers, TerraTrema Film has developed an internal post-production department for the management and processing of the shots, from acquisition to archiving. Adhering to the strictest directives in the field of digital image management, it has adopted a completely non-destructive and reversible workflow based on mathematical color management matrices that allows you to create masters independent of the current display technology.

TerraTrema Film collaborates, among others, with the University of Parma, the European Institute of Design - Milan, the Civic School of Cinema - Milan, the Emilia Romagna Region, the Sardinia Region, the Ministry of Cultural Heritage, ISPRA Ministry of the Environment and follows executive productions for the Sky Italia group.

The 8-episodes television serie 'Le Fotografe', produced by TerraTrema Film on behalf of Sky Italia, was broadcast on Sky Arte HD in the period between May 2021 and June 2021.

The documentary "Arbores" by Francesco Bussalai, produced by TerraTrema Film, co-financed by the Call for the development of cinema of the Sardinia Region 2018, participated in the Cinemambiente Torino 2021 Festival, at the Pakistan International Mountain Film Festival 2021 and won the "Ostana Award - writings in the mother tongue, Festival of Linguistic Biodiversity" at Babel Film Festival 2021.
