

Settembre Produzioni Srl operates in the audiovisual sector, in the all-round film and television industry, specifically it mainly deals with the conception, creation, organisation, production of feature films and short films, web TV as well as various formats with the aim of generating economic but also artistic and visibility value, with tangible consequences for the sector in which it operates as well as for those who demonstrate trust by investing in our projects.

Mission

This meeting point represents the consolidation of the experience of various professionals in the sector, who have decided to combine their resources, their expertise and all those qualities gained over careers in all aspects of the profession of television and film production both in Italy and abroad, as well as a specific know-how on the general organization that only daily presence on set can provide with the aim of focusing production efforts for better synergy and better achievement of results.

Vision

The intention is to pursue an international development plan while keeping in mind the extreme practicality that the logic of the current market demands. This parameter is perfectly in line with the fundamental criteria with which we work which dictate the importance of creating synergies based on a policy of concrete mutual support within the Italian audiovisual industry with prospects for international growth. Precisely for this reason Settembre Produzioni has opened up to partnerships ready to marry our core business.

Our Values.

Our greatest resources are people, ideas, constant updating which, together with technological tools, are able to make a difference.
