PROFILE

I was born in Ravenna in the 1992, I consider myself writer, filmmaker and worker. I'm specialized in photographic department and editing but I do like work as simple worker for the set. Since 2020 I regularly work in the seasonal harvests, grapes and cherries, chestnuts and olives. Since I was a boy I work in the assistance and maintenance of the bathing establishments during the summer season in the Adriatic coast. I travel a lot and I aim to gradually extend the geographic limits of my working opportunities. I write and document my experiences.
