MATTEO CASTALDO

FILANDOLARETE S.R.L. CEO
CONTENT PRODUCER

WHO I'M

As general manager of Filandolarete, in these 9 years I have developed various organizational skills, especially in the management of human resources of the various teams of collaborators. With the 2020 pandemic, I was also able to develop technical skills, especially IT skills, when remote streaming and content management were the priority in audiovisual productions. During this experience I had the opportunity and pleasure of coordinating and producing events of different kinds, such as fashion shows, TV commercials, conferences, training courses, up to the broadcast on Sky of the documentary "Il Canzoniere delle Lame", supported also from our Region with the Emilia Romagna Film Commission. I currently follow the business unit that deals with live events, audio/video services, videomaking and live direction. The next adventure? The production of a video game that mixes retro gaming with real scenes and 3D animations with Unreal Engine 5. It seems like science fiction, but today it is already the future
