The Figures of the Palio

Personal Project

Exhibition: Faenza (RA), Via Pistocchi

June 2020 - February 2023

The aim of the project was to depict, using the photographic portrait technique, the historical costumes of the Palio del Niballo of Faenza, based on paintings from the 1500s, analyzing the lighting techniques and the poses of the paintings, then posing the figures and the lights to create photographic works similar to the paintings themselves.

ATLAS
