Presentation:

I have a great passion for video making, computer science and three-dimensional design. I have the aptitude to always complete the job in the best way, taking care of it down to the smallest detail and leaving nothing to chance.

I consider myself a person with leadership skills, competence acquired over the years by attending scout and mountaineering associations, problem solving and ability to adapt to the context in which I find myself.

However, I do not lack curiosity and creativity that allow me to increase my technical and social knowledge

● **EDUCATION AND TRAINING**

2022 – Rimini, Italia
