PERSONAL INTERESTS AND FREE TIME

As far as I can remember, I have always appreciated beautiful productions, but above all the work behind the scene. In general, thanks to my High School studies in graphics and cultural heritage and the Comics School in Reggio Emilia, I believe I have developed a certain taste. I believe that my interests and previous studies combined with my work experience, where extreme organization and relations with the public are essential, could be the key to being able to do the best possible with what you have available in any circumstance.

I have always been an avid consumer of concerts and live evenings. I have had the opportunity to organize events for a Ligurian agency, Hellfire Booking Agency, throughout northern Italy: concerts of Italian bands but especially international groups. I have often taken charge of organizing themed parties, both during high school for the school and for the Fuori Orario club during the last few years.

I volunteer as rescuer for the Canossa Red Cross committee, for which I have often organized charity events and transportations.

A handwritten signature in black ink, appearing to read 'Gianluca', is located in the bottom right corner of the page.
