ABOUT ME

Being open minded is my keyword. I'm a creative person with an IT background, this allows me to be more methodical and solve many problems that I face during my main photography/videomaking passion/career, on my own, without getting stuck. I've travelled in many countries during the years, more than I could even remember, saw many cultures spoke different languages and still I love discovering the world. I can surely say that my characteristic I am most proud of is the ease with I constantly adapt to new situations and cultural/social changes. Anyway, my life is all about photography, telling stories through images, whether still or in motion, is my goal.

WORK EXPERIENCE

2019 – CURRENT Ravenna, Italy

● Sports photographer Fotoravenna

Especially during the weekend I've been working for years now as a **sports photographer for a photo studio in Ravenna (Italy)**. This job requires us to be in good physical shape because a lot of the times we shoot in challenging mountain trail environment and, during the years it allowed us to develop **self management skills** in order to look for, get to the locations and finally move through them as needed. Lastly it allows us to develop a **strong set of teamwork abilities** as we always work together to cover a full event.

Some of the events we've shot for:
Tor des Geants (Courmayeur), Trail della Bora (Trieste), Bologna Marathon, Ferrara Half Marathon, Trail degli Dei, Colnago Bike Festival (Desenzano del Garda), Trail del Cinghiale (Palazzuolo sul Senio), Ronda Ghibellina (Castiglion Fiorentino) and many others all across the country.

19/06/2023 – 30/06/2023 Loreto, Italy

● Backstage Photographer Moonpath srl

Backstage photographer for the production of a documentary regarding the life and career of Walid Cheddira, a football player born in Loreto, Italy, who played for the Morocco national team during the 2022 Qatar World Cup.

03/2022 – 04/2022 Ravenna, Italy

● Videomaker for a weekly newspaper Ravenna e Dintorni

I worked in team with a local journalist to shoot video content to later put together with her articles on the newspaper web news page. I was responsible for both the creative process behind a piece of content and the actual making of it (shoot and edit).

10/12/2022 – 20/12/2022 Ravenna, Italy

● Exit To Iceland - Photographic Exhibition

During my working experience in Iceland I gathered a number of shots representing life and landscape of the country, with the idea in mind of creating an exhibition about this exotic place once back home. **The event was a huge success and taught me a lot about managing a bigger photo project than I am used to and also developing a body of work to a point which I feel comfortable releasing it to the public.**

11/2020 – 07/2021 Boncellino, Italy

● IT Guy, Web-Designer, Content Creator CIM3 s.a.s.

I was an all round IT person with tasks ranging from **network management and mainly to website design/building, graphic design and content creation** (events videomaking/photography and some catalog shots).
The company website is entirely laid out, designed and realized by me.

VIDEOMAKING

Blackmagic DaVinci Resolve

GENERAL

Office Suite: Microsoft Office

WEB DESIGN

Wordpress | Elementor PRO

MAKING

OnShape | Basic 3D Printing | Basic 3D Modeling | Ultimaker Cura

ADDITIONAL INFORMATION

Publications

A 1m Dal Cielo 2021

A small **auto-published photobook telling the story of the COVID19 pandemic in my little town**. The point of this project is to describes this historical period and the changes the we all faced but from the perspective of a smaller then average town in the middle-northern Italy where all seams almost frozen in time. **It tries to tell that by using a sequence of 30 shots taken during the Christmas Mass of 2020, all shot on 35mm black and white film.**

All the book content is shot, developed, scanned, written, designed and laid out by me.

Projects

● **24x36 Light&Darkroom** This is my newly born YouTube Channel. It's about photography and all it means to me. It will talk about digital and film photography for sure but also about soft skills that are essential to grow as a photographer like determination, focus and much more.

Summing things up, this channel is a way of sharing to the world everything I love about photography and everything I wish I've know earlier about this huge and beautiful world.

Hobbies and interests

● **Photography, Videomaking and Storytelling** Since I was a little child I love photography all round and I'm non-stop developing new skills, learning and finding new passions in this broad world. **My passion is to tell stories through pictures, wether still or in motion.**

● **Film Photograpy** Since I was 16 I fell in love with film photography, I've been always fascinated by the gear that seams by all means obsolete but can lead to outstanding results still to this day. I develop, and scan both my 135 and 120 film, black and white and C41 color negatives. **I think I fell in love for the extreme pleasure of being in close touch with my work, with the shots I created, feeling them sliding though my fingers.**

● **Travelling** Traveling is the best way of being free, because **only if you know what's outside your routine and culture you can truly understand what you want and can achieve.** I've travelled in a lot of countries, I'm still excited like the first time and always looking forward to the next destination.

● **Making** I'm an occasional but passionate maker. **I've been self teaching the basics of 3D mechanical modeling and 3D printing** and also studied electronics to some extent during my IT studies.

My last small project is a 35mm modular film box that you can compose based on how many rolls you need for the shooting day:

● **Languages** I'm passionate about languages, because **speaking the language of someone helps immediately break any barrier.** I've been learning for a couple of years Russian to the point I am an intermediate speaker now. Also I am a beginner Japanese speaker and to some extent I understand and speak a little Polish.
