DESCRIPTION

I graduated in piano and composition at the Music Conservatory of Piacenza (Italy).
Afterwards, I published an album of pieces for piano called "Etra", which led me to hold several concerts in Italy.
I have about 10 years of experience in music composition; my pieces have been performed in Germany, Switzerland, Belgium and Japan; and I made soundtracks for some short films and many videos.
Currently I work as music composer for media, and piano accompanist for ballet.
