

IRENE TORRICELLA

Freelance Illustrator & 2D Animator

Freelance artist with a passion for creating stories and characters with both light and dark themes. My goal is to communicate feelings through colors, drawing, and movement.

I have always dreamed of being able to convey emotions, just as animation has always done for me since I was a kid.

I place great importance on client satisfaction; my commitment is to bring their ideas to life through a work that reflects the project's aesthetics and is as close as possible to their vision.
