Via del Lavoro 6, Bellaria (RN)

Air Service is a company that has established itself in the market as an innovative response to the needs of various market segments that want to fully exploit the potential of UAVs (Unmanned Aerial Vehicles). The company was founded by a group of professionals with extensive experience in the aeronautical and filming sector, who understood the need to use UAVs in an extensive and advanced way to meet market demands.

Air Service stands out for the quality of its aircraft and the professionalism of its pilots, who have been rigorously selected to guarantee maximum reliability and competence. Furthermore, the company has invested in advanced technology to create sensors dedicated to UAVs, which allow it to offer cutting-edge services and responses to the most diverse market demands.

In the fleet there are drones with ENAC/EASA class marking: DJI Mavic 3 Cine, Inspire 3 with X9 8K Raw and complete set of lenses, Matrice 300, Cinewoop 4k.

The authorization procedures for airspace requests are managed internally, which take place with direct contacts with the ENAC bodies, Prefectures, Police Headquarters, Ministry of Justice, etc.

Present in the "white-list", Rimini prefecture, in the "nolo a caldo category.
