

COMPANY PROFILE

INTRODUCTION

take is a talent agency and production company with offices in Bologna and Milan, but working all over Italy and worldwide.

It was funded in 2006 as a dynamic and flexible reality with the aim of combining creativity and production service of the highest level.

Over the years we have built an extensive portfolio, from smaller to bigger projects, including (but not limited to), advertising, fashion, music and more.

Our aim is to give every project the highest production level in order to allow the creative idea to flourish and be expressed at its highest and strongest.

The continuous scouting of new talents is one of our daily activities: the search for new photographers, directors, video makers, content creators, communication specialists and highly creative people is definitely one of our strengths.

We build every project we are involved in on this strength as well as passion, experience and international know-how.
