About me

I'm a dynamic and full of initiatives person, very hard worker, available for business trip and work travel. I've got strong interpersonal, organizational, and communication skills. I am also goal-driven, with ability to multi-task and be a part of a team. I love movies, special effects and art. Since 2011 I had the pleasure to collaborate with the master Gino Tamagnini, winner of two David di Donatello awards. He is also the collaborator of Milena Canonero - Oscars winner , with whom I had the honor to work in "Something Good".
