

GIUSEPPE CASSARO

FILM SCORE COMPOSER | ARCHIVE MANAGER | FILM PRODUCER

Giuseppe Cassaro, Italian musician and composer for film and TV, producer, and archive manager.

My career operates on a dual track, balancing artistic creation with editorial and production management. In my roles as a showrunner, line producer, and executive producer, I oversee every stage of original productions, while also specializing in iconographic research and the management of archival footage.

As a composer and sound designer, I create original scores for feature films, documentaries, short films, television formats, docuseries, commercials, and web content. Through my collaborations with Flipper Music, GDM Music Library, and Danda Music, I have developed projects that have earned significant industry recognition, including nominations for the **David di Donatello** and **Nastri d'Argento** awards, as well as being a finalist in the Nastri d'Argento "top five" category for my work on short films.

In 2012, I founded the production company **Echivisivi**, where I serve as producer and art director. Over the years, I have produced and developed formats and documentaries for major national and international broadcasters, including Rai Documentari, La7, Sky Italia (Sky Arte and Sky Documentaries), Netflix, ITsART, and laEffe TV. My professional journey has allowed me to build strong synergies with prominent partners such as Solaria Film, Minerva Pictures, Red Carpet Production, Zalab, and MYmovies.
